Preamble & Foundational Declaration

WE, THE NATIVE-MOORS of the Casablanca Republic of Morocco "CROM", physical and spiritual descendants of the ancient, noble Moors and the biblical Tribe of Judah, acting in our absolute private, natural, and ecclesiastical capacity through our sovereign property repository, the Crom Royals Private Ministry Trust, do hereby ordain, establish, and execute this Supreme Tribal Constitution.

Guided by the Light of Truth, as chronicled and preserved in our foundational historical texts, we systematically strip away the modern legal fictions, colonial misnomers, and commercial statutory dependencies that have historically bound our people. We stand here today to reclaim our ancient names, our ancestral land inheritances, our autonomous self-governance, and our unshakeable sovereignty over our families, our internal commerce, and our estates.

We explicitly anchor the political, legal, and geographic independence of this Tribal Nation to the global framework of the United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP) and the historic United States Morocco Treaty of Peace and Friendship (1786/1836), establishing this Constitution as the supreme law of the land over our members and within our designated enclaves across all fourteen constitutional dominions.

Article I — Territorial Dominions & Land Sovereignty

Section 1: The Fourteen Sovereign Dominions

The sovereign geographical jurisdiction and territorial inheritance of the Casablanca Republic of Morocco "CROM" Native-Moors shall formally encompass all tribal estates, smart villages, agricultural preserves, and land enclaves established by the Crom Royals Private Ministry Trust within the metes and bounds of the following territorial dominions:

CASABLANCA REPUBLIC NATIVE MOOR WAS BORN, SHALL TRANSFER AND CONVEY, AS TITLE, THE DOMICILE OF ORIGIN BACK TO CASABLANCA REPUBLIC NATIVE MOORS STATE IN THE MOORISH EMPIRE, of which their domination authority and inhabitation protracted from between 3 degrees northeast of present day Mogadishu and 22 degrees north latitude at Yemen (Moab), 5 degrees west of Sabala, 12 degrees east of the Kingdom of Axum to 42 degrees east longitude — 2,982 miles longitude, latitude, and South-Africa 12 degrees east longitude, south west of Moab at Luanda (Angola). Just below the Congo, across the Great Atlantis, even unto the present North, farthest West, top of America 72 degrees north latitude — 4,940 miles; 150 degrees west longitude — 21 miles, above the equator from Moab — 3,160 miles — and Central or Meso America including Mexico and the Atlantis Islands at 19 degrees north latitude — 1,330 miles; 122 degrees west longitude — 74 miles near to the equator from Moab — 9,028 miles — South America at 52 degrees south latitude — 3,640 miles; 78 degrees south west longitude

— 41 miles below the equator from Moab, for a geological span of over 15,876 miles, equivalent to 286,421,876 square miles.

1. The Dominion of Delaware (Primary Launch Seat)
2. The Dominion of Florida
3. The Dominion of Maryland
4. The Dominion of Pennsylvania
5. The Dominion of Indiana
6. The Dominion of New Jersey
7. The Dominion of New York
8. The Dominion of Texas
9. The Dominion of Wyoming
10. The Dominion of Virginia
11. The Dominion of Georgia
12. The Dominion of California
13. The Dominion of North Carolina (The 13th Dominion)
14. The Dominion of South Carolina (The 14th Dominion)

Section 2: Radical Title and Deeded Enclaves

All lands acquired, inherited, or reconveyed to the Crom Royals Private Ministry Trust within these fourteen dominions are officially declared **Sovereign Tribal Enclaves**. True, absolute, and radical title to these soils, waters, and airspaces is permanently vested in the Trust. These lands are permanently removed from public statutory commercial circulation and are completely exempt from public municipal taxation, zoning codes, and corporate state eminent domain.

Section 3: Smart Ecosystem Extraterritoriality

Every smart village, off-grid energy grid, community farm, and tech center erected within these fourteen territorial dominions operates under absolute Extraterritorial Consular Jurisdiction. The statutory codes, maritime regulations, and police powers

of the surrounding public corporate states stop at the coordinate boundaries of the CROM enclaves. Internal order is maintained exclusively by the Consular Court of CROM and enforced by the Consular Marshals.

Section 4: Public Zoning and Municipal Estoppel

No corporate municipality, county board, or foreign state agency shall possess any authority to enforce zoning ordinances, land-use permits, or building codes inside a CROM enclave. The Bureau of Smart Villages holds exclusive regulatory jurisdiction over all infrastructure construction, environmental designs, and utility grids within the fourteen dominions.

Article II — Incorporation of the United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP)

The Casablanca Republic of Morocco "CROM" explicitly adopts, integrates, and enforces the following international codes as supreme tribal law across all fourteen dominions:

Section 1: Self-Determination and Political Autonomy

- In alignment with UNDRIP Article 3 and 4, CROM Native-Moors possess the unalienable right to self-determination. By virtue of that right, we freely determine our political status and freely pursue our economic, social, and cultural development, maintaining absolute autonomy in our internal and local affairs.
- In alignment with UNDRIP Article 5, CROM citizens retain the right to maintain and strengthen their distinct political, legal, economic, social, and cultural institutions, while completely separating their vital statistics from public corporate state structures.

Section 2: Protection from Forced Assimilation and Land Seizure

- In alignment with UNDRIP Article 8, the Trust shall strictly defend its members against any act of forced assimilation or destruction of their culture. No corporate state agent shall enforce statutory identities upon CROM members.
- In alignment with UNDRIP Article 26, CROM Native-Moors have the right to the lands, territories, and resources which they have traditionally owned, occupied, or otherwise acquired. The Trust holds these lands securely, and foreign

corporate municipal states are completely barred from confiscating, occupying, or forcing development upon our smart village enclaves.

Section 3: Educational and Cultural Sovereignty

- In alignment with [UNDRIP Article 14](#), the Council of Moorish Education possesses the absolute right to establish and control our alternative educational systems and institutions, teaching our youth in their own language and utilizing our foundational historical text, Light and Truth.

Article III — Objectives

Section 1: Foundational Rights & Powers

To secure for the Casablanca Republic of Morocco Native Moors — the population of voters, settlers, trustees, and beneficiaries — all benefits, rights, privileges, immunities, commerce, encomiums, possession, and custody of Moroccan political territories, lands, estates, hedge funds, and annuities, and powers as provided for under the Constitution of the Casablanca Republic of Morocco Native Moors in America (approved on _____), known as the principal instrument for self-determination and autonomy, insofar as it applies to all Morocco Native Moors of the Casablanca Republic of Morocco in America of the Moroccan Empire.

Section 2: Statutory Benefits & Programs

To secure the benefits, rights, privileges, exemptions, and powers provided by the laws of the “CROM” Casablanca Republic of Morocco Native Moors in America, existing or that may be adopted by resolution for the benefit of Moors, Indians, Latinos, or other citizens of the Casablanca Republic of Morocco, administered by various government agencies, units, and associations through relief, conservation, rehabilitation, resettlement, welfare, education, health, and other self-determined remedies, programs, and social needs.

Section 3: General Welfare & Stateless-Persons Remedy

To promote the general welfare of the Native Moors, Tribe of Judah, So-Called Black Negros, Indians, Latinos, and other citizens of this Moroccan state and its members when Moors become stateless persons due to international law and nationality issues involving birthright theft caused by constructive and fraudulent misrepresentations.

Article IV — Treaty Protections and Moorish Commercial Immunity

The Casablanca Republic of Morocco "CROM" explicitly invokes the supreme treaty protections found within the United States–Morocco Treaty of Peace and Friendship (1786/1836) to secure all internal and external commerce:

Section 1: Exclusive Consular Judicial Jurisdiction (Treaty Article 20 & 21)

- Pursuant to Article 20 of the Treaty, if any citizen of CROM shall have a dispute or difference with another member of the assembly, the public corporate courts of the United States or its individual state dominions have zero jurisdiction. The matter shall be heard and determined exclusively by the CROM Consular Court.
- Pursuant to Article 21 of the Treaty, if a dispute arises between a public United States citizen and a CROM Native-Moor, the case cannot be heard in a standard corporate municipal venue. It must be brought before the CROM Consular Tribunal, where the Consular Judge shall sit to see that absolute equity and natural justice are administered.

Section 2: Commercial Freedom and Non-Molestation (Treaty Article 14 & 15)

- Pursuant to Article 14 of the Treaty, the commerce of the CROM Native-Moors shall be completely unmolested. All commerce, goods, smart technologies, and agricultural products passing through or between the fourteen territorial dominions are exempt from public corporate tariffs, commercial licenses, customs inspections, or commercial state taxation.
- Pursuant to Article 15 of the Treaty, merchants and private commercial actors operating under the Crom Royals Private Ministry Trust or within our Private

Membership Associations (PMAs) shall have full liberty to trade, barter, and exchange assets without interference. Their private vessels, transports, and electronic ledger balances cannot be boarded, detained, or frozen by any public regulatory agency.

Section 3: Diplomatic Immunity and Safe Passage (Treaty Article 2)

- Pursuant to Article 2 of the Treaty, all members carrying the verified credentials of the Council of Consular Affairs are granted permanent safe passage across all territories and jurisdictions. Public law enforcement, municipal police, and border agents must respect the diplomatic, non-commercial status of CROM members, their private automobiles, and their property.

Article V — The Government Matrix & Executive Powers

Section 1: Composition and Executive Authority

The executive authority of the Casablanca Republic of Morocco "CROM" across all fourteen territorial dominions is permanently vested in the Council of the Dey.

- **The Head of State:** The Dey of CROM serves as the Chief Executive, Paramount Trustee, and Commander-in-Chief of the Tribal Nation.
- **The Cabinet:** The Dey appoints and oversees the Chancellors of the seven remaining Administrative Councils.

Section 2: Administrative Mandates

The Council of the Dey is constitutionally empowered to execute the following directives:

- **Enforce the Trust Constitution:** Ensure that all tribal operations strictly adhere to this Constitution, the Crom Royals Private Ministry Trust indenture, and the tenets of Light and Truth.
- **Issue Imperial Decrees:** Write and publish binding Tribal Decrees to adjust internal policy, govern the smart ecosystem enclaves, and protect the sovereign borders of the fourteen dominions.
- **Diplomatic Relations:** Act as the sole authority to open diplomatic communication, establish foreign consular posts, and sign private treaties or joint-venture agreements with external sovereign nations or private entities.
- **Treasury Oversight:** Supervise the Grand Treasurer to guarantee that all assets inside the unified CROM Tribal Treasury are utilized strictly for indigenous development, education, and philanthropy.

Article VI — Public-to-Private Veil Interface & LLC Subordination

Section 1: The Capture of Public Corporate Vessels

To securely interface with the public commercial domain without compromising the private immunity of the Tribe, the Trust is authorized to hold and control statutory corporate vessels. Any state-registered Limited Liability Company (LLC) captured or created under this Article shall be treated as an artificial commercial buffer shield. These public vessels are strictly subordinate to the Crom Royals Private Ministry Trust.

Section 2: CROM Holding LLC as the Master Public Buffer

- **Absolute Ownership:** CROM Holding LLC is established as the primary, master public corporate shield. The Crom Royals Private Ministry Trust shall be designated in the company's operating agreement as the 100% Sole Beneficial Member and Owner of all membership shares.
- **Insulation of Identity:** No natural person, tribal national, or individual trustee shall hold personal ownership or equity stakes in CROM Holding LLC. The entity is owned entirely by the ecclesiastical trust, preventing any personal liability attachment or public asset seizure.

Section 3: Regional Subsidiary Management

To systematically manage commercial affairs across the fourteen dominions, CROM Holding LLC shall maintain three regional operational subsidiaries:

1. **CROM Mid-Atlantic Holdings LLC:** Governs commercial housing, real estate, and educational academy transactions within the dominions of Delaware, Maryland, Pennsylvania, New Jersey, and New York.

2. CROM Southeast Holdings LLC: Governs maritime transport, import/export interfaces, and southeastern real estate ventures within Florida, Georgia, Virginia, North Carolina, and South Carolina.
3. CROM Southwest Holdings LLC: Governs large-scale automated agricultural acquisitions, grid infrastructure, and water sovereignty projects within Texas, California, Wyoming, and Indiana.

Section 4: The Treasury Sweep and Tax Immunity Protocol

- **The Capital Sweep:** The appointed Managers of CROM Holding LLC and its regional subsidiaries are constitutionally mandated to execute an absolute financial sweep of all net commercial revenues, property titles, and digital asset balances at the close of each standard business cycle.
- **Ecclesiastical Transformation:** These funds shall be transferred directly into the Unified CROM Tribal Treasury Ledger. Upon ingress into the treasury ledger, the capital is completely scrubbed of its commercial status and is reclassified as tax-immune, private ecclesiastical trust assets. The public corporate shells shall be maintained at a neutral or zero-net asset balance to eliminate public state tax liabilities and corporate exposure.

Part 2 — The Eight Operational Councils

1. Council of the Dey of CROM

The Supreme Executive Command branch. It holds ultimate veto power and commands the international relations of the Trust. It issues binding imperial decrees to activate infrastructure and expand territorial holding parameters.

2. Council of Nationality and Birthright

The genealogical gatekeeper branch. It reviews, traces, and authenticates the tribal bloodline connection of diaspora applicants to the ancient Moors and the Tribe of Judah based on the Light and Truth scriptural mechanics.

3. Council of Vital Statistics

The autonomous records registry. This council acts completely independent of foreign municipal recording systems. It registers and archives natural births, home marriages, and deaths occurring within the fourteen dominions, issuing unalterable tribal birth records.

4. Council of Consular Affairs

The diplomatic bridge. It handles all administrative interfaces between tribal nationals and foreign state agencies. It issues autonomous Consular IDs, Tribal Passports, and handles the service of process for all Letters Rogatory and Notices of Immunity.

5. Council of Commerce

The economic infrastructure engine. It governs the design, construction, and deployment of off-grid smart villages, geodesic aquaponic greenhouses, and internal

barter network software. It administers all Private Membership Associations (PMAs) and Sovereign Bond Offerings.

6. Council of Private Law

The judicial arbiter branch. It codifies and enforces Natural Law, customary Moorish codes, and private express trust contract law. It operates the Consular Courtroom and processes binding ecclesiastical arbitrations to settle peer-to-peer disputes without public courthouse intervention.

7. Council of Moorish Education

The intellectual cultivation branch. It completely dictates the educational curriculum for youth and adults across the dominions. It operates the CROM Global Institute, running mandatory training cycles in etymology, legal decoding, financial literacy, and international treaty law.

8. Council of Defense and Character

The community shield branch. It vets the moral standing and background records of all incoming applicants to ensure security against state infiltration. It commands the CROM Consular Marshals, providing security for the greenhouses, the land enclaves, and enforcing court-ordered writs of restitution.

Testimonium & Ratification Clause

IN WITNESS WHEREOF, we, the founding Trustees, Chancellors, and Sovereign Nationals of the Casablanca Republic of Morocco "CROM" Native-Moors, do hereby affix our natural wet-ink signatures and private seals to this Supreme Tribal Constitution. We swear our sacred oaths to protect the fourteen dominions, enforce our treaty immunities, and walk in the Light of Truth.

We declare under the laws of the private domain that this document is executed in multiple counterparts, each of which shall be deemed an original, and all of which taken together shall constitute one and the same supreme tribal instrument.

Ratified and Decreed by the Executive Head of State
